Sir,  
I fetched data from Einframe regarding loaded projects on that, please find the attached file, for your reference, in which I mentioned data with status.  
The overall interpretations are as follows :

1. Very few projects are loaded on Einframe till date.
2. Out of them only 1-2 are running and monitored.
3. Rest are either left and not monitored or not published yet.
4. I think people only use the Einframe for filling time sheets, as per below mail which shows weekly time sheet reports. As they know only this one is tracing.
5. Although some people skip the timesheets also, or feel very limited so that their name entry can come in the report.

Please see these details at your end, and spare some time before this Wednesday meeting to discuss and suggest. As taking projects is not at all on going on Einframe, as per my observations.

Thanks & Regards,

**Jalaj Mathur** | Manager
