Hi Sir,

After editing it works fine.

But other users are not able to open the survey page even after adding access roles.

Thanks & Regards,

Hi Jalaj,

Can you edit the survey and add the participants again?  
We've made some fixes, I think it should work now.

**Subject:** Fwd: New Survey Notification

Sir,

I created a survey. I received the below mail which has the wrong link. We also could not find this survey in "Open Surveys".

Modifying the below link to "<https://gil.einframe.com/surveys/qsurveytake.aspx?id=1>" causes an error, and the survey does not load.

Please advise and fix.

Thanks & Regards,
