Dear Team,

Please find the sheet with details of product KPI as heading (bold), and scopes under that heading. These have to put in Einframe database, that will come during incident (defects) capturing.

The product KPI means the characteristics / features / working / main behaviour of our product, that must be in the product.

So please check these KPIs and their subheading, are all covered or any else you want to add or modify.

Also EV Charger, AC Charger & BMS project teams, for these three products, same type please provide me.

Thanks & Regards,

Jalaj Mathur | Manager
