Dear Tarun Sir and Ripi Sir,

Hope you are doing well.

As per my individual discussions with you, I am setting up some time to discuss following:

1. EinFrame's adoption at Genus Innovation and early user feedback
2. Way forward and how we can leverage each other's strengths for product improvement

Feel free to include any other topic of discussion which is of interest to all the parties.

Jalaj – please join if you are available during this time.

Best Regards,

Prashant
