Sat, Oct 9, 2022

Please find the below some brief of today's session :

--> Some understanding clear :

1. How to show delay, hold or re plan a project due to other urgent tasks / project : In task approval page mention remarks on those tasks which are in delay / hold etc, so that Senior management can see those remarks on Project Tasks report page, even project manager and user can also see. For more that 5-6 days delay or any significant delays of project due to other urgent works, re plan by un publish and publish the plan, ensure proper comments including reasons mentioned during this. Use the lead option to shift tasks to further dates.
2. Less than 15 days activities taken as project or individual action items : Last time (Sep.21) we decided that these will take as Action items, but after see this in last one month approx. lot of action items created which are included multi team members, so handling, monitoring etc are become difficult. So its decided that we should take it as project in system, but cleverly select project categories like "D" or "G" so that unnecessary toll gates planning and review can avoid.
3. Do better understanding of Project reports and Incident management in team members.

--> Improvement / new features required in Einframe to more smooth work :

1. Comments mentioned on task approval page should be show at project task report page at below of each tasks, and if possible include dates of comment.
2. Project task report page should have link with time sheet of each task.

* Please fill these feedbacks in the Einframe feedback section, so that can pass on to Prashant ji.

Thanks & Regards,

Dear Team,

Please find the below some brief of today's session :

--> Improvement / new features required in Einframe to more smooth work :

1. During action items assigned other than projects, the same facility required as in projects means we can assign one action item to more than one person at a time with corresponding involvement percentage.
2. Timesheets entries can see on each action item assigned by any of us to anyone, on the home page itself, by clicking the action item.
3. In Project task report, if we click project task then we can see all timesheets of that particular task.

4. Action item hold option required.

* Please fill these feedbacks in the Einframe feedback section, so that can pass on to Prashant ji.

--> Some understanding clear :

1. How to hold or re plan a project due to other urgent tasks / project : For less than 5 days delay in one or more month project please do not change plan by unpublish / the plan. For more than 5-6 days delay or any significant delays of project due to other urgent works, re plan by unpublish and publish the plan, ensure proper comments reasons mentioned during this. Use the lead option to shift tasks to further dates.
2. Less than 15 days activities taken as project or individual action items : We should not take such projects in which our planning and other overheads exceed more than total project cost / duration. So upto 10-15 days activities as individual action items, but mention that which you will do, dependency to other departments and waiting p mentioned there.
3. How involvement percentage defined in project tasks : Currently we don't have any written data of any particular task's effort estimation, so use experience, gut feeling ask the owner of that task to define involvement percentage of each task. Ensure do not fill fake or random percentage figures.

Dear Team,

As discussed the support activities as Project created in Einframe, and all corresponding activities as tasks assigned to corresponding team mem you can fill time sheet for these activities as per below steps :

1. Login with your id and password.

2. Open Data Capture

3. Then Open sub header Innovative Development as below :

The screenshot shows the 'TIME SHEET ENTRY' form in the EinFrame application. The left sidebar menu is expanded, and 'Innovative Development' is highlighted with a yellow arrow. The main form area has a breadcrumb trail: HOME / DATA CAPTURE / INNOVATIVE DEVELOPMENT / TIME SHEET ENTRY. The form contains several fields: 'Select Activity Type *' (dropdown menu showing 'Project Assigned Tasks'), 'Select Project *' (dropdown menu showing 'SUPPORT ACTIVITIES'), 'Select Task *' (dropdown menu showing 'To provide Timely Einframe Implementa...'), 'Comments' (text area), 'Date *' (date picker showing '2021-08-03'), and 'Time Range *' (time range picker showing '10' to '11' and '55' to '20'). There is a checkbox for 'Mark Finished' and a 'Save' button. At the bottom, there is a section titled 'Display Timesheet Entries'.

4. Then click Time Sheet Entry tab, then below window on right side show :

EinFrame

DATA CAPTURE / INNOVATIVE DEVELOPMENT / TIME SHEET ENTRY

TIME SHEET ENTRY

Select Activity Type * - Select -

Comments *

On Sat, Jul 17, 2021 at 3:02 PM Jalaj Mathur <jalaj.mathur@genusinnovation.com> wrote:
Dear Team,
With reference to trailing mail, as we did 2-3 hrs training in 2 days, and most of us attended that. As decided yesterday, i submi inputs to him to improvement in this software as below :

1. Time sheet capture : Activity type, there are only four headers in which we can fill time sheet, but as discussed we have many ot activities (other than project) which we want to make as header, so that in report easy segregation can occur, these additional requ headers are as below :

- Service Support
- Sales Support
- Production Support
- Quality Support
- Purchase Support
- Branding Support
- Components Validation
- BOM Costing
- SAP Support
- CRM Support
- Store Management
- Trainings
- Future Projects Related
- Others

- 2. Just like Man power assigning in each task, we require Machines / tools assigning in tasks.
 - 3. Document upload during task activities and show at report page.
 - 4. Assigned tasks in project / Project plan view to all team members / intimation via mail.
- He will analyze and explore the possibility to improve this.

Meanwhile i added all list of tasks from start to beginning, as we decided in Feb. as below below sheet, so whenever we take a we can select these predefined tasks as project life schedule during planning, only we have to put dates, resources and success predecessors.

<https://drive.google.com/file/d/1QJGGPgp6QeZivnG0GztHtINqkDui-rjC/view?usp=sharing>

So as decided we should take any one small project (can be old) to put data in this and see how it works and how reports show..

Subject: Re: EinFrame Email Issues

Hello Prashant ji,

Now all mails are corrected in the system and all users got their login details and also they did login system.

Now we can do the user training session tomorrow. Please confirm and schedule.

Thanks & Regards,

Jalaj Mathur | Manager

Hi Jalaj,

These email are still bouncing.
Can you correct the email addresses in employee profile:

raghvendra.thakur@genusinnovation.com
bharti.sharma@genusinnovation.com

Subject: Re: Testing plus e-mail address

Prashant ji,

I edited profile of those four persons who have same mail id "get.gilrnd@genusinnovation.com" and mentioned mail ids as below, please send mail to them with their user name and password :

get.gilrnd+abhishek@genusinnovation.com

get.gilrnd+rajshekhar@genusinnovation.com

get.gilrnd+rohit@genusinnovation.com

get.gilrnd+vikash@genusinnovation.com

One person Raghvendra with mail id raghvendra.thakur@genusinnovation.com, still not got mail.

Thanks & Regards,

Jalaj Mathur | Manager

I am sending this email to jalaj.mathur+test@genusinnovaiton.com

If you receive this, it means you can use plus email addresses. For e.g., you can use get.gilrnd+pankaj@genusinnovation.com or get.gilrnd+prashant@genusinnovation.com for different users using same email inbox.
